FRENCH NEARING HINDENBURG LINE

AMERICANS AND FRENCH, ADVANCING FROM SOUTH, ALSO MAKE IMPORTANT CAPTURES.

(By the Associated Press)

London, Sept. 6.—British troops today captured Neuve Chapelle and Buissey. Field Marshal Haig's forces crossed the Canal Du Nord on the whole front, except for a small salient from Havrincourt north of the Scarpe. Between the Somme and the Oise the French have captured the block of hills known as Outercourt Massif, three miles from Chauny. The French have secured a good hold on the northern bank of the Ailette and on ground between the Ailette and the Oise. They are approaching, if not actually on the Hindenburg line at St. Gobain Massif.

Other Gains of British.

London, Sept. 6.—Advancing east of the Somme to Peronne the British have taken St. Christ Breist village and Le Mesnil Bruntel Field Marshal Haig reports in today's official statement. A number of prisoners have been taken by the advancing troops. In Flanders the British are established in portions of the old German front line east of Neuve Chapelle and in the old British line in Fauquissart sector. The British have also advanced northwest of Armentieres.

French and Americans Gaining.

Paris, Sept. 6.—French troops last night continued to push forward on the entire front between the Somme and Vesle rivers, says today's official statement. South of Peronne the French made a further crossing of the Somme in Epernacourt region. Farther south the Ham-Peronne road was reached at several points. In the region north of the Ailette river the French reached the outskirts of Sinceny and the plateau north of Landricourt and south of the Ailette. Advancing forces are along the Vauzaillon ravine. American troops advancing from the Vesle have captured Glennes, southeast of Revillon and have advanced their lines as far as Viller-en-Prayeres' outskirts on the Aisne river.

SECOND GAME OF SERIES TODAY

(By the Associated Press)
Chicago, Sept. 6.—With the Red Sox one game in the lead as a result of yesterday's victory, the American and National League champions faced each other today in the second game of last world series until the war's end.

Ruth kept the Cubs puzzled throughout yesterday by the peculiar underhand delivery. Tyler or Hendrix is slated to pitch for Chicago today and Bush or Mays for Boston.

John Canavan Dead.

John Canavan, a former resident of Stonewall, died at Drake, Okla., last Friday. The body was shipped to Stonewall and laid to rest in the Stonewall cemetery Sunday afternoon.

Deceased was an old time resident of this community and was during the latter part of his residence here engaged in the 2nd hand furniture and hardware business.

Nearly everybody knew "Uncle John" and with the large circle of friends the News joins in extending sympathy to the bereaved family.—Stonewall News.

LIBERTY.

Entirely new, the program that will be presented this evening by Dan Russell and his Matinee Girls. The picture program consists of the Blue Ribbon feature, The Golden Goal, presenting Harry Morey. It is the story of the regeneration of a man who was down but had the grit and determination to rise again.

HUNS SCUTTLE TO SAFETY

RESISTANCE TO FRANCO-AMERICAN ADVANCE NORTH OF VESLE BREAKS DOWN.

(By the Associated Press)
German resistance between the Aisne and Vesle rivers has broken down completely before the persistent pressure of General Mangin's Franco-American forces. Germans are in retirement not in an orderly manner, but forced almost to the extent of flight. The Americans have advanced and occupied heights on the south bank of the Aisne and the French have crossed the Aisne northeast of Soissons and threaten the Germans' Chemin Des Dames defenses. To the north the French have fanned from two to four miles in a flanking movement on Ham, the fall of which is imminent. German rear guards have been driven back on the British front north and south of Peronne and larger German forces have been engaged between Athies and Nurl.

Allies Nearing Ham.
London, Sept. 6.—The important feature of this morning's news is the crossing of the Canal Du Nord over the whole front, except from Havrincourt to the Scarpe, and that the French secured a footing on the eastern side of the whole water line down to Ham. Entente Allied forces are now about four miles from Ham and still progressing.

BAKER DISPLACES CLASS 1 MEN

PLACES TOBE FILLED WITH MEN DISQUALIFIED FOR ARMY SERVICE.

(By the Associated Press)
Washington, Sept. 6.—Secretary Baker has ordered the chief of each bureau in the war department to replace by December 31 all men within draft age who would be classified in class one now assigned to duty in Washington or in a war department branch elsewhere, with men physically disqualified for general military service.

TRAVELERS TELL OF HUNGER IN AUSTRIA

Paris, July 19 (Correspondence of The Associated Press).—Hundreds of starving Austrians in the capital city of Vienna recently surrounded a train on which a party of Rumanians was traveling to France and begged piteously for bread, according to the Rumanians who have now arrived here.

The party asking for food gathered about the train in the Hitzing quarter of Vienna where some of the most well-to-do people of Vienna live, said Captain R. Rosetti of the Rumanian army. They told the Rumanians that turnips, beets and potatoes constitute almost the only food of a large part of the population of Austria.

There were more than 300 men, women and children in the party that surrounded the train, said Colonel Rosetti, and almost everyone expressed horror at the continuance of the war and bitterly reproached Germany for the desperate plight in which they found themselves.

Their faces were pinched and pale and showed unmistakably that they had borne intense privations and suffering. Several among the number declared there must soon be a widespread revolution in Austria if steps were not taken to feed the population.

Colonel Rosetti offered one of those who sought help 10 crowns. The money was declined on the ground that no food could be bought for it. The Austrian, who in peace times, was a prosperous store keeper, pleaded for bread for his children, whom he said had nothing to eat for three weeks except turnips and beets.

The German colonel in charge of the train, was so annoyed at the cries of the hungry crowd, that he gave orders to have the train moved forward at once to another part of the city.

All passengers on the train had to submit to a rigid search by the Austrian authorities and no one was permitted to carry a single scrap of paper. Madame Titelescu, and several other women passengers, were temporarily deprived of all their clothing and a minute examination made of their persons for the purpose of detecting any secret information they might be carrying from Rumania to France.

Bowser Is Sentimental But, as Usual, It Is Not Appreciated

Mr. Bowser took a seat on the front
steps the other evening to smoke his
cigar.
The cat was with him and she
purred peacefully. The crickets in
the grass of the front yard sang songs
for his pleasure.
The moon rose, and she rose higher
than usual, as if to challenge his ad-
miration.
Now and then a whippoorwill called
for his mate, and the sound of a ped-
dler's voice shouting "blackberries"
came to his ears like a sweet lullaby.

"Boss, Have You Any Umbrellas to Be Mended?"

Mr. Bowser grew sentimental under
all these things. He thought of his
boyhood days. He thought how pleas-
ant life was. He thought how good
Mrs. Bowser was to him, and how
there was not another cat in the town
who thought as much of her home
By and by an umbrella mender opened
his gate and walked in and said:
"Boss, have you got any umbrellas
to be mended?"
"My dear friend," replied Mr. Bow-
ser, "how can you view that glorious
moon up there and talk of mending

Creator for making you such a night,
free of expense. How many of those
delicious stars can you count?"

"I'm not a-going to try, but I can
count one old cheap sitting on his
front steps with a cat in his lap. Why
don't you talk plain English, as all
other folks do?"

The peddler had been gone five or
ten minutes when the cobbler came
over with a piece of paper in his hand.
He waited a moment to be addressed,
and, as he was not, he said:

"I beg your pardon, Mr. Bowser, but
here is something you have forgotten.
You had a patch put on a shoe about
three months ago and you forgot to
hand me the change. It is only a
quarter, but I happen to need it.
Here is the bill."

"Cobbler—patch—shoe," repeated
Mr. Bowser. "Why, man, you
should not have come here this eve-
ning of all evenings in the year."

"But I thought you had forgotten."
"Didn't you see that glorious moon
and those bright stars? Didn't you
see that I was pined in thought?"

"I saw the moon and stars," replied
the cobbler, "but I thought you come
out here to cool off and it wouldn't do
any hurt to speak to you. If you can't
pay the bill now—"

"Pay for a patch on a shoe such a
night as this! Don't you hear the
crickets warbling their sad notes? Don't
you see the fleeting shadows? Don't
you feel this soft and gentle evening
breeze?"

"Why, I think I do," replied the cob-
bler, "and you can stop in and pay
the bill in the morning. I wouldn't
think too much if I were you, for it
makes one loose in the head. One
time, I sat and looked at the moon for
about half an hour, and it made me
sleepy. I couldn't figure two and two,
and the doctor warned me that I had
better look out."

The cobbler went away, and Mr.
Bowser returned to his state of en-
trancement. The harp struck up
again, and this time there was a singer
with it. The song was "Buffalo Gals"
and the air was meant to be lively,
but struck Mr. Bowser with a peculiar
sadness. The moon also seemed to
be sad and the stars no longer shone
with their former brilliancy. Mr. Bow-
ser felt a tear sadly rolling down his
sad cheek, and his chin might have
begun to quiver with emotion, when a
sewing machine agent came along at a
brisk walk and turned into the gate, and
said:

"Perhaps you haven't got a sewing
machine yet? I am agent for one of
the best and yet one of the cheapest
machines ever brought out. If you
have no objections, I should like to
speak with your wife?"

"No mind but a sordid and selfish
mind could come around here at this
hour of the night and profane the
heavens as you are doing. Don't you

"There Was a Sudden Flit."

umbrellas? I should think you would
love to take a seat and reflect on what
a beautiful canopy has been made
over the earth for our benefit."
"So you have no umbrellas to
mend?" asked the man.

"My dear sir, if I had a thousand
umbrellas to mend, such a night as
this is not the night to pass them out.
Think of an umbrella with three ribs
broken, and the ferule missing with
the stars twinkling the way they are.
It is a sacrilege, man—it is a sacrile-
ge!"

Mr. Bowser was still admiring the
glorious night, when a vegetable ped-
dler came to the gate and called to
him in a hoarse voice:
"Say, you! I have got ten cucum-
bers left, and I want to sell out. They
are solid all the way through, and
are the biggest bargain you have
had offered to you in five years."

"Did you ever see a moon like that?"
finally spoke Mr. Bowser. "Look at
its roundness! Look how she smiles
down on the earth. Look—"

"Oh, I've seen moons before tonight.
Say, old man, what about these cucum-
bers? You buy me out and I'll
hustle home to my dear wife and
children."

"Man alive, go away with your cucum-
bers! You ought to be sitting in a
grove of cypress trees, thanking your
way."

see that moon and how grandly she
loves? That moon is visible in every
and under the sun and millions of
people are looking at the glorious
sight, but you are here to sell a sew-
ing machine—a thing of steel and
iron."

"Oh, I see the moon right enough,"
replied the agent, "but I might look
at it for a year and it would bring
me no bread and butter. If you hap-
pen to be satisfied with the machine
you've got, let me sell you a musical
instrument."

"You sordid wretch!" exclaimed Mr.
Bowser. "Listen to that harp and
that song, and let your heart melt, as
mine does."

The song of "Buffalo Gals" died
away as suddenly as if a grasshopper
had jumped down the throat of the
singer. The harp quit playing and the
crickets in the grass ceased to chirp.
The moon saw red and Mr. Bowser
rose up and began to descend the
steps. All his entrancement was gone
and his eyes looked danger. The agent
moved along and Mr. Bowser moved
after him. He was reaching for the
man's coat collar when there was a
sudden flit and a pursuit. He ran that
agent down to the corner and, though
he did not catch him, he frightened
him until he was as pale as a ghost.
Then he returned to his seat on the
steps and, an hour later, Mrs. Bow-
ser found him asleep in a shadow
passed by the moon.

"Don't you know better than to sit
out here in the chilly air?" she asked.
But Bowser only granted. He had
returned to practicality, and all senti-
ment had vanished with the whippoor-
will, which was only a sparrow, any-
way.

AMERICAN NEGROES MAKE GOOD SOLDIERS

With the American Troops in
France, Oct. 2.—(Correspondence of
the Associated Press)—American
negro troops are regarded by their
officers as exceptionally good at pa-
trol work, as raiders and scouts. They
seem to have some quality lacking in
the white man which enables them to
slink and crawl across No Man's
Land in a way that defies detection.

But the negroes never lose their
latent superstition and fear of the
dark. Without white officers to sup-
port them morally their value is said
to deteriorate quickly. They "see
things" with ease.

The negro trooper's timidity at
night is best illustrated by the ex-
perience of a captain, who found one
of his men at work after dark. The
negro was talking violently to him-
self:

"Niggah, pick up that wheel bar-
row and push it over there! Now put
that barrow down! Tip it over and
empty it. Now wheel it back and fill
it up again!"

To all of which the negro answer-
ed, "Yes, sah!" and suited the action
to the word. He explained to the as-
tonished captain that he felt, less
lonely and scared in the dark if he
pretended a white officer was there
to give him orders.

Let the average negro soldier halt
and be forced to lie down for a time,
and he goes to sleep almost immedi-
ately, unless he is forcibly kept
awake. The leaders of at least one
regiment have had to adopt a plan
whereby all the members of a patrol
when they lie down, join hands, with
the white officer at one end. He keeps
the squad awake then by pressing the
hand of the man next to him, who
repeats the pressure to his right or
left and receives an answering pres-
sure as evidence that his companions
are awake.

Nevertheless, the negroes are al-
ways ready for a fight. One regiment
had begged its way into a portion of
the line where action was assured in
the last German offensive, and that
action suddenly began. Five of the
officers of that regiment alone were
in hospitals but heard a few hours
in advance of what was coming.

The colonel left the hospital on
crutches, two other officers were car-
ried to the trenches on litters and
two more hobbled in—so as to be
with their men and be assured they

I. O. O. F. GRAND LODGE ADJOURNS

Oklahoma City, Oct. 2.—Plans for the building of a permanent home in

Oklahoma were discussed yesterday by the Independent Order of Odd Fellows at the closing session of the twenty-sixth annual convention of the grand lodge and the Rebekah assembly. Several cities are said to be in the running to secure the location of this home. They are Oklahoma City, Tulsa and Muskogee. Oklahoma City seems to be most favored.

The proposed building will cost between \$200,000 and \$500,000 according to the plans of the committee composed of the grand master, deputy grand master and the grand warden, who were appointed to learn what sites could be secured and what assistance would be given by the city in which the home is located.

The closing feature of the grand lodge was a stirring patriotic address by J. B. A. Robertson, democratic nominee for governor, and past grand sire of the sovereign grand lodge.

The convention closed late last night following the annual election of officers. In the Odd Fellows grand lodge M. B. Cope of El Reno was elected grand master; E. B. Cline, Tulsa, deputy grand master; Thomas G. Andrews, Stroud, grand warden; G. W. Bruce, Guthrie, grand secretary; G. W. Schlegel, Chandler, grand treasurer; Logan Hawkins, Tonkawa, grand representative; George Morgan, Crescent, grand trustee, and A. T. Whitworth, Carmen, member of the orphan's home board. Oklahoma City was elected as the place for the next meeting.

The Rebekah assembly elected the following officers: Mrs. Minnie Stacey Hobart, president; Mrs. Cora Meeker, Sapulpa, vice president; Mrs. Helen Taggart, Muskogee, warden; Mrs. Martha E. Reger, Enid, secretary; Mrs. Ida Smith, Guthrie, treasurer. Mrs. Mattie Human, Durant, trustee, and Mrs. Viola Crisler, McAlester, member of the orphan's home board.

Appointive officers are Mrs. Jessie Fishback, Bartlesville, marshal; Mrs. Annie Higgins, Cheyenne, conductor; Mrs. Nettie Miller, Anadarko, chaplain; Mrs. Edythe Salter, Cherokee, inside guard and Mrs. Bessie Dickenson, Gotebo, outside guard.

Every parent with a son at or going to a training camp should see "Oklahoma Behind the Flag" for there they will see every phase of army training camp life. It's a true picture, an official picture and after you have seen it you'll know what the army means to your boy.

How Mrs. Burnell's Daughter Recovered.

Drewsville, N. H.—"My daughter was anemic, had poor blood and suffered from indigestion and bilious attacks. As Vinol had built up my son some time ago, I gave it to my daughter, —she soon improved in health, and it has built her up and restored her health."—Mrs. N. Burnell.

ANAEMIA AND POOR BLOOD

The reason Vinol was so successful in Miss Burnell's case is because it contains beef and cod liver peptones, iron and manganese peptones and glycerophosphates, the very elements needed to build up a weakened, run-down system, make rich red blood and create strength.—Gwin & Mays Company, Druggists, and Druggists Everywhere.

Men and Women of Ada

You are asked to give two hours to HELP WIN THE WAR!

Will you do it?

Of course you will.

And will you let General Pershing—YOUR General—name the time?

Of course you will.

Splendid!

Now, all together, GET READY!

Monday, Oct. 7, 9 A. M. to 11 A. M.

EVERYBODY AT ONCE?

Certainly!

Here is our pledge which we are going to sign:

To GENERAL JOHN J. PERSHING AND ARMY, En Route to Berlin.

Ada, Oklahoma, pledges you, through its entire citizenship, signed hereto, ten thousand strong, to dedicate TWO HOURS, from 9:00 a.m. to 11:00 a.m., Monday, October 7, 1918, to our flag and country, as follows:

During those two hours we will remain in our places of business, or in our homes if we have no place of business, and will center every thought during that time on the sole purpose of HELPING YOU AND OUR BOYS WIN THE WAR.

ONE HUNDRED of us, who are soldiers in the LIBERTY ARMY, recruited and under full military orders, will sell Ada's quota of Liberty Bonds during those hours to our people, including ourselves.

Those of us not in the Liberty Army, after completing our bond purchases, will devote the remainder of the two hours to patriotic services as follows:

We will write at least one letter in our own handwriting to a soldier at the front, renewing to him our assurances of undivided support.

We will, in family and business groups, sing "YOUR BOY AND MY BOY," and other patriotic songs, and where possible in groups, without leaving our places of business, listen to patriotic addresses, limiting our every thought and act to patriotic purpose.

It is our earnest prayer that our singleness of purpose as conveyed to you in this message, may, in some degree, contribute to the continued success of our American army.

SIGNED BY ADA'S ENTIRE CITIZENSHIP.

To Ada Ward Captains and Workers:

You will be furnished today sufficient copies of the Pershing Pledge to obtain the signatures of ALL the people of Ada.

You will, through your Committee, note and report any refusal to sign the pledge.

You will, through your Committee, advise our people of the following general rules governing the 9:00 to 11:00 o'clock Pledge.

No business of any character to be transacted by anyone during that period, other than the purchase of Liberty Bonds. The only exception is to be incident to sickness and indispensable public service.

No business of any character means:

No restaurant business, no dry goods sales, no soda water sales, no hotel registrations, settling of bills, no drayage done, no auto traffic, no grocery sales, no sales or purchases by phone, not a letter dictated nor a business letter opened, no bookkeeping entry, not a phone call except about Liberty Bonds, no reading of business correspondence—in fact, ABSOLUTELY NO BUSINESS. The schools will conduct patriotic exercises. Whistles everywhere are to blow promptly at 9:00 a.m. for five minutes, and for one minute at 11:00.

ABSOLUTELY UNIFORM OBSERVANCE OF EVERY DETAIL IS VITAL.

(Signed) ED GWIN, Chairman, For The City of Ada.

AND NOW, PEOPLE OF ADA! PLEASE GET THIS!

You are to buy your bonds from the Committee which will call on you Monday. You are to pay at least one-tenth of your subscription to that Committee, then you can go to the bank and arrange for the balance.

This is the meat of Ada Liberty Loan Plan, already organized to success—AND YOUR PART IS TO SIGN THE PERSHING PLEDGE.

Earnestly, ED GWIN, Chairman, For The City of Ada.

(This space is dedicated by the publishers of this paper, without charge, of course, to the development of a national plan for the distribution of war securities.)

THOUGHT MAN WAS CRAZY

"I have suffered from stomach and liver trouble for years; the last two years people have been calling me crazy. The doctors could not do anything for me. The awful bloating of gas seemed to press against my brain and I could not think clearly. Three months ago a friend advised taking Mayr's Wonderful Remedy and it has worked wonders in my case. All my bloating and suffering is gone and I feel as though newly born." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Gwin & Mays Drug Company, and Druggists Everywhere.

SUFFRAGE LOSES IN SENATE BY 2 VOTES

Washington, Oct. 2.—The senate today refused to grant the request of the president that the woman suffrage resolution be passed as a war measure.

After five days of bitter debate, corridor conferences and cloakroom negotiations, the Susan B. Anthony federal amendment resolution enacted by the house last January received on the final roll call two votes less than the necessary two-thirds majority. Fifty-four senators were recorded for it and thirty against it, with twelve absent and paired.

Including the absent and paired senators, the roll call showed that the senate lineup of 62 to 34 on the resolution remained virtually unchanged from the beginning of the fight Thursday.

Chairman Jones and other champions of the resolution declared after today's vote that the defeat is only temporary and that the contest will be renewed after the November elections, when changes in membership are certain. Administration leaders also admitted that the vote was the first important reverse President Wilson has met in advocacy of what he has declared to be essential war measures.

On Wednesday, Oct. 2, the entire 36th Division, formerly of Camp Bowie, Ft. Worth, Tex., will be in Ada for the afternoon and night.

There will be miles and miles of men, (many of them from this locality) thousands of horses, train loads of supplies and equipment. They will pass in review, the entire division, nearly 40,000 men, in mass formation. They will continue their camp life and training, every detail of a great army training camp will be carried out in that splendid interesting, inspiring four reel picture made at Camp Bowie, Tex., "Oklahoma Behind the Flag." It's a picture of an unusual kind and of a very interesting nature to Ada and vicinity for the fact that many soldier boys from here are in it. FRENCH NEARING HINDENBURG LINE

AMERICANS AND FRENCH, ADVANCING FROM SOUTH, ALSO MAKE IMPORTANT CAPTURES.

(By the Associated Press)

London, Sept. 6.—British troops today captured Neuve Chapelle and Buissy. Field Marshal Haig's forces crossed the Canal Du Nord on the whole front, except for a small salient from Havrincourt north of the Scarpe. Between the Somme and the Oise the French have captured the block of hills known as Outercourt Massif, three miles from Chauny. The French have secured a good hold on the northern bank of the Ailette and on ground between the Ailette and the Oise. They are approaching, if not actually on the Hindenburg line at St. Gobain Massif.

Other Gains of British.

London, Sept. 6.—Advancing east of the Somme to Peronne the British have taken St. Christ Breist village and Le Mesnil Brunet Field Marshal Haig reports in today's official statement. A number of prisoners have been taken by the advancing troops. In Flanders the British are established in portions of the old German front line east of Neuve Chapelle and in the old British line in Fauquissart sector. The British have also advanced northwest of Armentieres.

French and Americans Gaining.

Paris, Sept. 6.—French troops last night continued to push forward on the entire front between the Somme and Vesle rivers, says today's official statement. South of Peronne the French made a further crossing of the Somme in Epernancourt region. Farther south the Ham-Peronne road was reached at several points. In the region north of the Ailette river the French reached the outskirts of Sinceny and the plateau north of Landricourt and south of the Ailette. Advancing forces are along the Vauzaillon ravine. American troops advancing from the Vesle have captured Glennes, southeast of Revillon and have advanced their lines as far as Viller-en-Prayeres' outskirts on the Aisne river.

TRAVELERS TELL OF HUNGER IN AUSTRIA

Paris, July 19 (Correspondence of The Associated Press).—Hundreds of starving Austrians in the capital city of Vienna recently surrounded a train on which a party of Rumanians was traveling to France and begged piteously for bread, according to the Rumanians who have now arrived here.

The party asking for food gathered about the train in the Hitzing quarter of Vienna where some of the most well-to-do people of Vienna live, said Captain R. Rosetti of the Rumanian army. They told the Rumanians that turnips, beets and potatoes constitute almost the only food of a large part of the population of Austria.

There were more than 300 men, women and children in the party that surrounded the train, said Colonel Rosetti, and almost everyone expressed horror at the continuance of the war and bitterly reproached Germany for the desperate plight in which they found themselves.

Their faces were pinched and pale and showed unmistakably that they had borne intense privations and suffering. Several among the number declared there must soon be a widespread revolution in Austria if steps were not taken to feed the population.

Colonel Rosetti offered one of those who sought help 10 crowns. The money was declined on the ground that no food could be bought for it. The Austrian, who in peace times, was a prosperous store keeper, pleaded for bread for his children, whom he said had nothing to eat for three weeks except turnips and beets.

The German colonel in charge of the train, was so annoyed at the cries of the hungry crowd, that he gave orders to have the train moved forward at once to another part of the city.

All passengers on the train had to submit to a rigid search by the Austrian authorities and no one was permitted to carry a single scrap of paper. Madame Titelescu, and several other women passengers, were temporarily deprived of all their clothing and a minute examination made of their persons for the purpose of detecting any secret information they might be carrying from Rumania to France.

HUNS SCUTTLE TO SAFETY

RESISTANCE TO FRANCO-AMERICAN ADVANCE NORTH OF VESLE BREAKS DOWN.

(By the Associated Press)
German resistance between the Aisne and Vesle rivers has broken down completely before the persistent pressure of General Mangin's Franco-American forces. Germans are in retirement not in an orderly manner, but forced almost to the extent of flight. The Americans have advanced and occupied heights on the south bank of the Aisne and the French have crossed the Aisne northeast of Solsois and threaten the Germans' Chemin Des Dames defenses. To the north the French have advanced from two to four miles in a flanking movement on Ham, the fall of which is imminent. German rear guards have been driven back on the British front north and south of Peronne and larger German forces have been engaged between Athies and Nurl.

Albes Nearing Ham.

London, Sept. 6.—The important feature of this morning's news is the crossing of the Canal Du Nord over the whole front, except from Havrincourt to the Scarpe, and that the French secured a footing on the eastern side of the whole water line down to Ham. Entente Allied forces are now about four miles from Ham and still progressing.

If Jack Frost delays his coming this year to a reasonable date, fall gardens will do much to solve the high cost of living for several weeks. Since the rains began these gardens have been planted in great profusion.

Every man except one in every print shop in Ada will register next week for military service. If Ed Runion is left to do all the printing and publishing in Ada, he will be in a fine position to endorse a certain remark once made by General Sherman.—Star Democrat.

There should be increased interest in the home guard at this time when the new draft law is about to become effective. By learning the tactics now those who enter the army later will be just that far ahead of the raw recruits and be relieved of much work with the awkward squad. Now is the time to get some valuable experience, boys, so drop in and make the most of the opportunity, unless, of course, you enroll with the S. A. T. OFFICIAL RULES FOR BIG DRAFT

HOW GREAT REGISTRATION OF MEN FOR OVERSEAS SERVICE WILL BE CONDUCTED.

According to unofficial information received pending the publication of the proclamation of President Wilson, the following procedure will be held in the conduct of the coming draft registration which press reports declare, will take place on Thursday, September 12:

State headquarters, local boards and other officials of the state will hold themselves in readiness to proceed promptly with their work of registration on the date fixed.

Existing draft machinery will be used with such increased facilities and additional registrars as are required for this enrollment. The governors of the states, under the president's proclamation will probably be called upon to supervise this registration, and the Adjutant General, or draft executive, will be the central administrative authority. All local boards will have immediate direction and supervision within their respective jurisdiction. The actual registration will be made in the customary voting precincts within the jurisdiction of each board or in such other places as the local board having jurisdiction shall designate by public notice.

Rulings issued by the Provost Marshal General as to persons who are required to register under the act will be as follows:

All male persons who shall have attained their 18th birthday and shall not have attained their 46th birthday on or before the day set for registration by the president must register. The only exceptions are:

(A) Persons, who, prior to the day set for registration by the president, have registered under the terms of the act approved May 18, 1917—(which fixed the original age limit at 21 to 30 inclusive) or under the terms of the public resolution of congress approved May 20, 1918, (providing for the registration since June 5, 1917, of those reaching the age of 21 years), whether called for public service or not, and

(B) Officers and enlisted men of the regular army; officers appointed, and men of the forces drafted, under the provisions of the act approved May 18, 1917; officers and enlisted men of the National Guard while in the service of the United States; and the officers of the officers reserve corps and enlisted men in the enlisted reserve corps while in the service of the United States; and

(C) Officers and enlisted men of the navy and marine corps and officers and enlisted and enrolled men of the naval reserve force and marine corps reserve while in the service of the United States; and

(D) Diplomatic representatives, technical attaches of foreign embassies and legations, consuls general, consuls and consular agents of foreign countries residing in the United States.

Persons not subject to registration solely on account of being in the military or naval service of the United States become subject to registration and are required to register immediately upon leaving such military or naval service.

Citizens of the United States or persons who have declared their intention to become citizens of the United States who do not register on account of absence from the territorial limits of the United States are required to register within five days after their return to the United States.

The regulations will warn registrants and all other persons charged with a knowledge of the regulations, that ignorance of the provisions will not excuse them.

These regulations are to have the force and effect of law, and all persons required by these regulations to be registered, and all persons who may claim any right or privilege in respect of any registrant, will be charged with knowledge of the provisions thereof. Failure by any person required to be registered to perform any duty prescribed by these regulations is a misdemeanor, punishable by imprisonment for one year, and may result in the loss of valuable rights and privileges and an immediate induction into the military service.

Local police authorities in all parts of the country will co-operate with the government in the enforcement of order on registration day. Regulations to be prescribed and sent to draft officials of the various states will contain the following provisions:

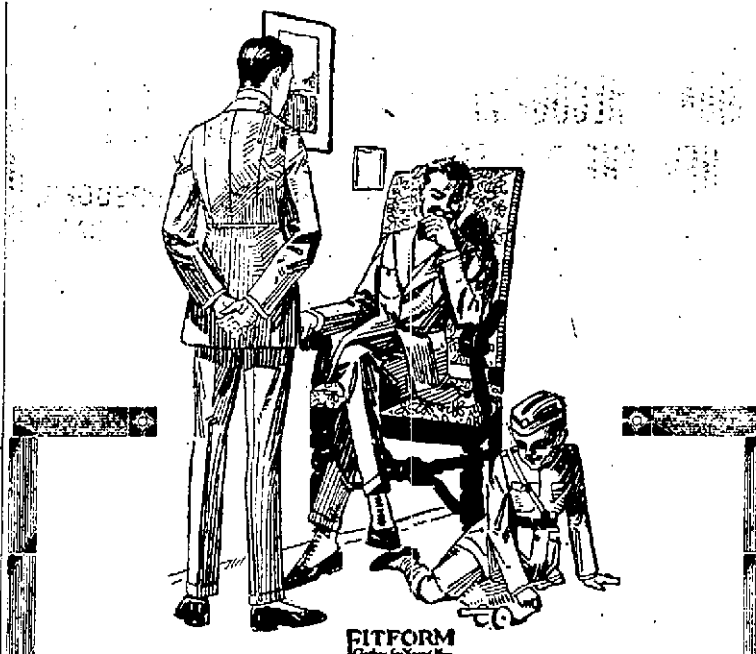

On the day set for registration all federal marshals, deputy marshals and investigating agents, and all police officers, state, county, township, municipal, and town, of whatever grade or call, shall hold themselves in readiness to render whatever assistance may be necessary in preserving order at places of registration and in assisting in bringing about a complete registration.

All marshals, deputy marshals, investigating agents, and police officers shall examine the registration lists and report without delay to the local boards the names of any persons known by them to have failed to register themselves when liable to registration; and it shall be the duty of local boards to report to the provost marshal or district attorney all cases coming to their attention of persons who have failed to present themselves for registration as required by law.

Police officers may require any person subject to registration to exhibit his registration certificate. In every case in which a duly designated officer or agent refuses or fails to act, the governor, adjutant general, or member of a local board will proceed at once to name another officer or agent for such duty, and will bring the fact of such refusal or failure, and the circumstances connected therewith, to the attention of the proper United States district attorney, with a view to the institution of prosecution of such officer or agent, as provided in Section 6 of the act approved May 18, 1917.

It is essential that the people of this state shall accord the fullest measure of co-operation in the carrying out of this order. Ignorance of the law and of regulations issued by proper authority under the law excuses no one. All persons on the border line of registration will be required to give adequate proof that they are outside of the age limit specified. The penalty for failure to register is one year's imprisonment, and no man can exonerate himself by the payment of a fine.

ALLIES IMPROVE BOMBING METHODS

Behind British Lines in France, Sept. 6.—(Correspondence of the Associated Press)—Aerial bombing is today far more of an exact science than was supposed possible a year and a half ago. In the early days of the war, dropping bombs was largely a matter of luck, and the straight eye of the aviator was the only factor relied upon for success.

Today, however, matters are entirely different. Accurate bombights have been produced which, carefully used, are a guarantee of the bomb falling on the object aimed at, with in a very small margin of error. Of course, in the case of all such in-

struments, the human element is sometimes responsible for errors of calculation, and a small error on a bomb-sight at 15,000 feet will send a bomb far out of its course. In the words of an American aviator who has done some splendid raiding work in France:

From this it must not be thought that the majority of Allied bombs do not reach their billets in Germany or in the German lines; for aerial photographs taken after raids have shown that they do. But emphasis is laid on the importance of the personal factor in bombing. In the excitement of work of this kind—often in the midst of heavy shell fire—a very cool head is required to manipulate an instrument as delicate as a bomb-sight. British aviators for example, receive a very thorough training in bombing before they are allowed to proceed overseas, and must obtain a certain number of hits before they can graduate.

It is thought that quite a lot of the wanton and useless destruction of private property in England by German raiders is due to sheer bad bombing. Undoubtedly the Central Powers are behind the allies in regard to bombing gear, for on a large German twin-engine bombing airplane recently captured was found a crude copy of an English bomb-sight which was introduced more than two years ago.

Aerial bombs range in size from 10 pounds up to fifty or sixty times that weight and are roughly of two kinds, incendiary and high-explosive. They are generally laid on their sides in racks underneath the airplane but sometimes they are carried in cells specially fitted in the fuselage (or body) of the machine. In either case they are fused and released by levers placed convenient to the pilot or observer, the bombs themselves being far out of reach.

When a bomb is released it does not fall directly downward but takes a forward path as it drops, in the direction in which the machine is travelling. This is due to the momentum imparted to it by the speed of the aircraft.

A factor of great importance in bombing is the time-length of the fuse. For example, if a railway junction was being attacked, a bomb which exploded on contact would do far more damage than one with a delay fuse for the former would have a wide, low radius of action—smashing up the railway line—while the latter would during the delay bury itself in the ground and merely make a deep crater of small area.

The reverse, however, would apply in the case of a munition factory. A bomb exploding on contact would go off as soon as it touched the roof, doing little or no damage to the remainder of the building; but an appropriately timed delay fuse would give the bomb time to crash through to the middle or ground floors, where it would be infinitely more destructive.

When you have an aches, stretchy feeling and you are dull, tired and discouraged it is a sign of approaching malaria or chills. You should act quickly to ward off an attack. HERBINE offers you the help you need. It destroys the malarial germ, drives out all impurities and makes you feel bright, vigorous and cheerful. Price 60c. Sold by Bart Smith.

UTO RACES AT THE STATE FAIR

DIRT-TRACK KINGS AT OKLAHOMA CITY

Barney Oldfield, Arthur Chevrolet, Wild Bill Endicott and Others Are to Appear

Oklahoma City.—Lovers of the automobile racing game have been provided with a feast by the management of the Oklahoma State Fair & Exposition this year. The best dirt track racers of the entire world, headed by Barney Oldfield, one of the most reckless racers America has ever produced, will pilot their gasoline steeds on the State Fair grounds track for three days during Fair week.

Oldfield will appear in a match race with Arthur Chevrolet, on September 21, the opening day. This will undoubtedly attract one of the largest crowds of the week. Barney will drive his famous "Golden Submarine" with which he broke all records for five, ten, twenty-five and fifty miles on a dirt track at Maxwellton track, near St. Louis, a year ago.

The Golden Submarine is a marvel. Its engine is constructed almost entirely of aluminum, and was designed by Oldfield himself. The body of the car resembles nothing so much as a great

Barney Oldfield.

egg set upon wheels. The driver sits within this "egg" and watches the track through slits cut in it. The body is of aluminum, also, and is painted a brilliant yellow—hence the name.

Chevrolet, one of the most daring of the younger generation of gasoline pilots, drives a Chevrolet special, which many contend is as fast a car as the Golden Submarine. Barney and Chevrolet have never met in their two cars, hence their respective merits will be decided on the Oklahoma City track this year.

On September 25, and again on September 28, some of the galaxy of American and foreign racing stars will appear. They include Leon Duray, a Frenchman, who holds several world's records; Larry Doyle, an American, and also a record-holder; Jules Ellingboe, holder of several Canadian records; "Wild Bill" Endicott, known from coast to coast for his reckless daring; Vere Soules, a French newcomer to American tracks; and Sig Huggdahl, a Norwegian and the only Scandinavian in the racing game in America.

FAIR AMUSEMENTS GOOD

C. A. Wortham Shows on Midway at Oklahoma City.

Oklahoma City.—The best obtainable is none too good for patrons of the Oklahoma State Fair & Exposition, and in line with that policy the management has booked the C. A. Wortham shows for the midway this year.

Twenty-two of the cleanest shows obtainable form the company. The headliner is the famous Wortham-Rice Water Canal, in which a number of the best girl divers and swimmers of the country participate.

The C. A. Wortham shows have made a tour of Canadian and northern fairs already this year, and in every city in which they showed they have been given record patronage and the endorsement of newspapers and citizens generally.

"OLD MILL" OPEN

"The Old Mill," one of the best patronized rides on the State Fair grounds at Oklahoma City, will be open again this year as usual, as will the "Figure Eight" and other riding devices which add to the fun possibilities of the Midway.

"The Old Mill" was burned two years ago at the same time that the old wooden grandstand was destroyed. The grandstand was replaced by the present concrete structure in plenty of time to accommodate State Fair crowds, but time would not permit replacing of the "Mill" until last year.

NEW BUILDINGS AT FAIR

Oklahoma City.—Three new buildings have been erected or completed for the comfort of visitors to the State Fair here this year. One is the Women's Rest cottage, another is the State Fair school, and the third is the concrete grandstand which was partially completed last year. Nearly \$100,000 has been spent by the State Fair in improving its equipment since the State Fair closed its gates on September 29, 1917.

The Meaning of the Flag.

Ada Methodist.

The flag is a symbol. The psalmist said, "Thou hast given a banner to them that fear thee, that it may be displayed because of the truth." Our flag is no less a symbol of the truth. It signifies that we are a free people. It proclaims that we are a United States. It symbolizes the thirteen colonies with its stripes and the United States with its stars. A pioneer minister in Montana related the following incident: On an isolated mountain road which he traveled there was a cabin inhabited by a prospector. Each Sunday as he passed he noticed the miner in front of his cabin reading his Bible. Hanging in the door each Sunday was the American flag. One day the minister climbed up to the cabin to inquire why the flag was displayed each Sunday. The prospector said that he loved his country and that he thought the Bible and the flag ought to be associated together, for both symbolized God's truth. When he read his Bible each Sunday he said he felt better to see the flag displayed.

The flag is also a security. It guarantees the citizen's safety. In 1869 a man was captured in Cuba under suspicious circumstances and was condemned to be shot. He was an Englishman by birth and an American by naturalization. The English and American consuls interfered for his life, but in vain. When the soldiers were drawn up to shoot the supposed spy the English consul stepped forward and wrapt the English Jack about the man and the American consul did the same with the Star and Stripes. Then they told the executioners to shoot through those flags if they dared. The Spaniards did not dare. The flags saved his life.

The flag represents a sacrifice and a service. The red represents the nation's blood and the white the purity of a loyal service. It is not fiction when we read of the loyalty of the standard-bearer who carries the flag at the head of the army through the rain of shot and shell. It is not an empty sentiment which stirs our blood when we see the riddled flag displayed. Prescott tells of a Spanish standard-bearer whose right arm was shot off and who immediately grasped the flag in his left arm. Presently the left arm was shot off, and the heroic comrade caught the flag in his teeth and furiously rode at the head of the army, leading it to victory. The flag perpetuates the sacrifice and the service of the Nation's patriots.

The flag is a sacrament. A sacrament is a visible and outward sign of an inward and spiritual grace. Just as the Christian observes the Lord's supper to commemorate the death of his Lord, so the flag is the nation's sacrament, for it commemorates the most sacred things in the nation's life and history. Many of our States have laws which prohibit the printing of anything over the flag. Thus to obscure the flag is to dishonor and desecrate it. What better proof is needed to show that the nation regards the flag as a sacrament?

The flag is a sanctification. It hallow and consecrates the national sentiment. It fosters the purest patriotism in the heart of the citizen. In "The Making of an American" Jacob Riis tells us that when he was home in Denmark on a visit to his mother he fell sick of a fever. When he was convalescent one day they rolled his bed into a room overlooking the sea. As he lay moodily picking the coverlet, sick and discouraged, he suddenly saw a ship passing close inshore. The ship was flying the American flag. He sat up in bed, he tells us, and shouted and laughed and cried by turns, waving his handkerchief to the flag. His folks thought he had lost his head. But he added: "I found it, and my heart, too, at last. I knew it was my flag; that I also had become an American." Does

the flag likewise sanctify us? Does it consecrate us to the nation's ideals? Does it purify our patriotism? Do we comprehend the truth which our banner displays? When we see the flag unfurled, do we also understand what it is to be an American?

Too Late.
Matt. 25:10.

A few years ago I went over the battlefield of Waterloo with an old Walloon guide. As we stood by the doorway of the stone chateau which was the center of the battle, the guide pointed out the wall which sheltered the Old Guard of Napoleon, and the ditch where Wellington's musketeers were hid, and the well which was filled with bodies of the dead and from which the cries of the wounded were heard on that fateful night. On my asking for the direction in which Blucher's troops had come to the relief of the allies, the guide pointed to a road running over the crest of a distant hill and cried, "There's where he came! At four o'clock in the afternoon!" Then turning to the opposite hills, he added, "And there's where Jerome should have planted his great guns at half-past three!" Then, with curses on the head of Prince Jerome, he walked, "Too late! Too late! And France was lost!" This is the requiem of lost fame, lost fortune, lost life, and all the ages! Too late! Too late!—D. J. Burrell, in the Christian Herald.

country, which is being conducted at Camp Bowie here under command of Captain Fred H. Morrell.

Students graduating must reach the following standard: Practical work, 50 per cent; recitation, theory, 20 per cent; care of kitchen, 15 per cent; discipline, 15 per cent. The majority of those graduated have been taken from the course for second cooks, with first cooks next in number and mess sergeants third.

The course includes lectures and instruction on rationing, bills of fare, component parts, field specifications, preparation, sanitation, temperatures, mess management, stock sheets, field cooking, recipes and visits to the packing houses here. An understanding of food values most needed to suit conditions existing in various places is being drilled into the students.

Great attention also is given to food conservation. The army must not waste and cooks are taught to throw all particles of meat and bone into a 20-gallon pot where the mixture is boiled and the fat rendered. The stock is then used for gravies and soups.

Some companies here require the men to weigh what is left on their plates and the amount is deducted from the next meal, thus adjusting the food needed to their appetites.

The sanitation course requires the mess officers to keep kitchen, mess hall, refrigerators, ovens and cooking utensils hygienically clean. This applies to tables and floors. How to set the tables is an important part of the study.

Experiments are conducted to devise means of using substitutes for flour such as oatmeal, cornmeal, and rice flour. Use of sirup instead of sugar where ever possible is encouraged.

"Food wastage," said Captain Morrell, "is not always the fault of the soldier at the mess table. The cook is often to blame. If he doesn't cook the food right, it will be distasteful to the men and they will refuse to eat all set before them. The well cooked meal puts the men in good spirits as well as helping them physically."

A record of food conservation was kept at the detention camp where the recruits are quartered and fed under the direction of Captain Morrell. Of 72,172 pounds of flour allowed the

DOCTOR PRESCRIBED VINOL

For This Poor Mother Who Could "Hardly Drag Around."

Glasgow, Ky.—"I am a farmer's wife and was suffering from a nervous breakdown—loss of flesh and poor appetite so I could hardly drag around and do the work for my family. My doctor prescribed Vinol. It not only made me well and strong but I have gained in weight." Mrs. S. M. Gray.

The reason Vinol proved such a wonderful strength creator in Mrs. Gray's case is because of the beef and cod liver peptones, iron and manganese peptones and glycerophosphates combined in a pure, native tonic wine, which makes Vinol the most successful tonic.—Gwin & Mays Drug Co., and Druggists everywhere.

HER OWN SISTER DIDN'T RECOGNIZE HER, SHE DECLARES

Mrs. J. D. Morrison Now Well and Happy After an Illness of Three Years' Standing, Praises Tanlac.

"I improved so much after taking this Tanlac that my own sister didn't know me at first, when I went to visit her," said Mrs. J. D. Morrison of 214 Twenty-fifth street, Ensey, Ala. "I lost my health three years ago and had stomach trouble of the worst kind," she continued. "I also suffered dreadfully from biliousness and constipation. I was feverish and restless most of the time and never knew what it was to get a good night's rest. I was almost a nervous wreck. I tried dieting and living on liquid foods until I was almost starved, but nothing did me any good."

"I started taking Tanlac and by the time I had finished my second bottle, my appetite had increased until I was able to eat just anything I wanted. I had gained thirty-three pounds in weight—had gone up from sixty-six to ninety-nine pounds in weight—and was feeling better than in a long time. I am now doing all my house work and even some of the washing. I feel that I owe my life to Tanlac."

Y. M. C. A. WORKERS DISPLAY HEROISM

(By the Associated Press)

With the French Armies, Sept. 6.—American Y. M. C. A. workers attached to the Moroccan division of the French army distinguished themselves by their heroism during the recent offensive on the Marne salient. They took an active part in relieving the wounded of the division, were under constant shell, rifle and machine gun fire and many had miraculous escapes. They carried water, cigarettes and food to the fighting men and acted as interpreters, many of the men of the division being of different nationalities.

Among those mentioned for displaying extraordinary heroism under fire were R. H. Bacon, New York City; Frank Hamilton, Buffalo; S. H. Bush, Iowa City; Ray Coyle, Berkeley, Calif.; and William Murray, Brooklyn, N. Y.

THOUGHT ONE CLEAN SHIRT ALL HE NEEDED

"Ten years ago I was reduced to a mere shadow. I was yellow as a sold piece and would often be doubled up with most excruciating pains in my stomach. Physicians could only relieve me with morphine. I was advised to try May's Wonderful Remedy and it helped me at once. What is more, I have been well ever since. A friend said he thought one more clean shirt all I would ever wear." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Gwin & Mays Drug Co. and Druggists everywhere.

The Bravest Battle.

The bravest battle that ever was fought!

Shall I tell you where and when? On the maps of the world you will find it not.

'Twas fought by the mothers of men.

Nay, not with cannon or battle shot, With a sword or noble pen; Nay, not with eloquent words or thought

From mouths of wonderful men! Oh, ye with banners and battle shot, And soldiers to shout and praise! I tell you the kindest victories fought!

Were fought in those silent ways. O spotless woman in a world of shame With splendid and silent scorn, Go back to God as white as you came—

The kindest warrior born! But deep in a wall-eyed woman's heart—

Of a woman that would not yield, But bravely, silently bore their part— So, there is that battle-field! No marshaling troops, no bivouac song, No banner to gleam and wave; But oh, these battles, they last so long—

From babyhood to the grave.

—JOAQUIN MILLER.

GOING THROUGH BARRAGE

Oklahomans have heard hundreds of times of "barrages." Few, however, save the heroic boys from this state who are battling Kaiserdom on the red fields of Europe, have ever seen a barrage or its effects. An exact duplicate of an artillery barrage is only one feature of the gigantic fireworks spectacle, "The World's War," which will be seen nightly at the Oklahoma State Fair & Exposition at Oklahoma City. The spectacle will be produced in front of the grandstand beginning September 22 and ending on September 28.

Hundreds of trained actors participate. They are correctly costumed in the uniforms of American and allied armies, and in the uniforms of German field gray. American troops charging through a curtain of fire put down by enemy artillery.

"The World's War" is produced under the supervision of men who have actually taken part in operations on the western front as members of the allied armies, but who have been released from service because of wounds. This insures faithfulness of detail.

Among the many interesting features of "The World's War" are scenes showing the storming of German trenches by American troops; the reception of the Yanks by the inhabitants of a French village, and similar incidents reflecting the daily lives of our boys in battle and battle line "over there."

Thousands of square feet of canvas are used to form settings for "The World's War," scores of horses and other animals are used to give reality to the battle scenes, and machine guns, siege cannon, and other military apparatus is employed to make it even more lifelike.

Aside from an actual trip to the western front, which few Americans will ever be able to make except as soldiers, nothing can give one an idea of modern battle better than its modern duplicate—"The World's War."

WAR EXHIBITS AT STATE FAIR

DEPTH BOMBS, TORPEDOES, BATTLESHIP MODELS, CANNON AND MACHINE GUNS

2 SPECIAL BUILDINGS FILLED

Army and Navy and Five Other Government Departments Co-Operate in Making Feature Attraction at Oklahoma City Exposition

Oklahoma City.—A depth bomb was dropped. In a few minutes bubbles and oil appeared on the surface. We are certain the submarine was destroyed.

How often have we read such statements in the daily papers? And yet few Americans have ever had the opportunity of seeing the "ash cans"—as our tars call depth bombs—with which the navy of Uncle Sam is sending the Hun sea pirates to the bottom of Davy Jones' locker!

An opportunity to inspect an "ash can" and to hear its workings described in detail by a man who has actually "dropped them upon the Kaiser's U-boats" will be afforded visitors to the Government exhibit buildings at the Oklahoma State Fair & Exposition next month.

These exhibits will be free to all, and are opened for inspection on Saturday, September 21, the first day of the State Fair. Throughout the remainder of the Fair and until its close on September 28, they may be seen. In combination with the exhibits will be free government motion pictures which will show among other things battle scenes taken in American trenches on the western front.

The army and navy department exhibits are naturally expected to attract great crowds, but combined with them and scarcely less interesting will be exhibits from the departments of agriculture, commerce, and the interior, as well as the United States Food Administration and committee on public information.

Included in the army exhibits are light type Browning machine guns, said to be the most deadly weapon ever invented; the aircraft type of Lewis machine gun; a 2.95-inch mountain gun; Springfield and Enfield rifles, the latter of which is now being used by American soldiers; trench periscopes; signal rockets; metal helmets, etc.

The navy exhibits include captured German rifles, naval mines; aero bombs; submarine winter clothing; projectiles of various kinds; models of battleships, cruisers, destroyers, etc., taken from the halls of the Navy department in Washington and never before exhibited, and numerous other pieces of naval equipment.

Four-minute men from various parts of Oklahoma will be on hand to deliver talks between showings of the government pictures, and to add representatives of the various government departments to explain their details to visitors.

All in all, the Government Exhibits building and its annex, containing in all nearly 14,000 square feet of floor space, are expected to be crowded to capacity during the entire eight days of the State Fair.

COUNTY AND STATE CONVENTIONS CALLED

Oklahoma City, Sept. 6.—A call for a democratic state convention to be held in Oklahoma City, Sept. 24 for adoption of a platform was issued by the democratic state central committee here yesterday.

Precinct caucuses for the selection of delegates to county conventions will be held in county precincts at 2 o'clock in the afternoon and in city precincts at 8 o'clock at night on September 17. County conventions for the selection of delegates to the state convention will be held on the afternoon of Saturday, Sept. 21. The state convention will be called to order at 10 o'clock, probably in the Auditorium on the morning of September 24.

With complete harmony, characteristic of past primary democratic pow-wows in Oklahoma, dominating its every move, the committee organized with the selection of Ben LaFayette of McIntosh county, chairman, succeeding Alger Melton of Chickasha, who did not aspire to reelection. LaFayette had no opposition when voting time came and he was elevated to the leadership of his party by acclamation.

R. E. Echols, former state senator of Elk City, who was mentioned in connection with the chairmanship in the early gossip on selections Wednesday night was elected vice chairman and George L. Bowman, whose name was also linked with the chairmanship, was made secretary.

D. B. Welty, Oklahoma county; Dr. C. L. Reeder, Shawnee; J. A. Tillotson, Nowata; Judge Harry L. Fogg, El Reno, and Vice Chairman Echols constitute the new executive committee.

THE KAISER WANTS YOU TO SPEND

Make That Old Suit Do For a While Yet.

This is addressed to you, Mr. American Citizen. It is also addressed to your family. It is up to you whether the war is won or lost. Some will tell you that food will do it. Some will tell you that coal is the thing that is going to save the day. But it is neither of these, nor is it all of them taken together, although each and every one of them will contribute its bit to the Cause of Democracy. There is only one factor in the struggle that counts—YOU.

You count just as much as the boys at the front. But you have to make yourself count by practicing the closest economy. Take, for instance, the matter of clothing. We all know that clothing is necessary to a civilized man. But during these war days it is not necessary to expend the amount of money for them as in the past. Think what it would mean if every man, woman and child in the United States today should buy heavily of clothing. It would mean depriving necessary war industries of much needed labor.

Battlefront indications are that the war is to come to an end within the next year—when our boys get into full stride 'over there.' Now, we can win this war for the side of Justice just as easily as not. Providing, of course, we do just one thing, practice economy. Therefore, we say to you Mr. American Citizen, Don't buy unnecessary clothing this year. Send your old garments to a first-class cleaning and dyeing establishment and put the difference between the cost of refurbishing up old clothing and the cost of new into War Savings Stamps and Liberty Bonds.

Patriotically yours,
PLUMLEE, The Tailor.

NEW REGISTRANTS TO BE CALLED SOON

Washington, Sept. 6.—Provost Marshal General Crowder said today that the national selective service machinery must speed up operations immediately to make it possible to get men from the new 18 to 45 registration on the way to army cantonments by the end of October.

Outlining changes in methods, adopted to that end, General Crowder said questionnaires would go out to registrants before the drawing has been conducted to determine their order of call, and that local boards would be urged to commence classification immediately.

"New Men Go in October." The necessity of filling the October requisitions either in part or in whole out of the effectives to be obtained under the new classification," General Crowder said after explaining that a few class-one men from the August 24 registration would be available to fill early October calls, "make it necessary to look forward to substantial speeding up in the work of the local board at that stage of the operation and indeed from the very beginning of the task."

To accomplish this, General Crowder said, local boards are asked to see that the return of the cards from the registration is as prompt as possible and thereafter that the process of assigning serial numbers to the cards is hastened.

Work to be Speeded Up. Accomplishment of this work inside of ten days now is asked, though in 1917 it took nearly thirty days. It may be possible to hold the drawing on October 2, General Crowder explained, but it cannot be started until the lists of serial number is completed by all boards.

A condenser head at the ice factory was broken Tuesday and the entire charge of ammonia lost. After some difficulty another supply of ammonia was obtained from Oklahoma City and part of the machinery started again today while the broken piece was shipped to Dallas to be repaired.

Y. M. C. A. HANDLES MONEY FOR SOLDIERS

Three million dollars, saved by American soldiers in the war zone of France, has been transmitted free of charge to relatives, friends or creditors in America within the last six months. Almost half of this \$3,000,000 was sent in July and the first week of August when the ever-increasing force of Yankee soldiers began to understand fully that the transmitting of their money from the extreme front to their homes free of all charge was the latest service offered by the Y. M. C. A. National War Work Council.

From a little experimental trickle of remittances totaling \$97,000 in March, when service was inaugurated by the Y. M. C. A., the amounts increased gradually until the monthly total sent home through this agency had reached the three-quarter of a million mark in July and in one list, received on August 21, the Y. M. C. A. National War Work Council was deluged with 18,000 names of persons in this country to whom payments were directed.

The total number of remittances sent through the Y. M. C. A. from American soldiers in France to payees in this country up to the third week of August was 50,000 which represented \$3,000,000. To mail out the checks on these 50,000 remittances from the New York headquarters to the payees in this country, the Y. M. C. A. spent \$150,000 in postage stamps alone.

All Red Tape Cut. The system, which the Y. M. C. A. inaugurated as only one of its phases of service to the soldier, is simplicity itself. A soldier in the war zone wishing to send money to some one in America, hands the cash to a Y. M. C. A. secretary with the address and leaves the rest to the Red Triangle. The Paris office is notified, and it mails to the New York office an order to mail a check to the payee. This is done as promptly as the check can be made out, signed and forwarded.

The remittances have ranged from thirty cents, which a soldier sent for a government publication, to \$3,500. The "Y" officials did not try to pry into the mystery of the big remittance, assuming the man must have been extremely thrifty.

Men appeared to have developed consciences about leaving unpaid bills here. Although the bulk of the remittances are sent with no comment, a few are accompanied by explanations, one man writing that his remittance was to pay his tailor, while another sent his insurance premium. One soldier sent seventy-five cents for a box of candy for his girl.

To sign this great pile of checks the Y. M. C. A. bureau has a check-signing machine on which the operator can sign ten checks simultaneously and which has a capacity of 4,000 checks an hour.

"To persons in this country who have been notified by soldiers to expect remittances and who have not received checks, I would recommend a few days' patience," said Mr. W. D. Elish, Deputy treasurer of the National War Work Council of the Y. M. C. A. "The orders to forward checks to addresses in this country have to be sent to us from Paris by mail. The government will not permit the lists of payees to be sent here by carrier which would lessen the time. Eight weeks normally elapses between the time the soldier hands over the money and the time when the payee receives his check. There may be delays but one thing is sure, the money will be delivered. As soon as a list of remittances is received here, the total represented is deposited in a trust company for the sole purpose of paying the checks drawn for that account and the money is not drawn against for any other purpose.

There has been congestion of the mails as was shown when we received 18,000 remittances from France on one day. We are expanding the force as rapidly as possible to handle the big influx of orders, especially as we just have been notified that the friendly service of transmitting money has been extended to our forces in Great Britain. We will have everything running smoothly, with checks forwarded promptly."

To meet the sudden increase the Y. M. C. A. has put a night shift of typists on the work of making out the checks.

Camp Monticlaum, Chateauroux, France, Sunday, July 29, 1918.

My Dear Mother:—

It has been five months today since I started on my journey across the pond to France. I walked the gang plank onto the boat February 27. I will get a service stripe August 27. It seems to me like it has been a long, long time, but I am afraid I will have near onto three service stripes before I see America again.

The drive the Allies are making now between Solissons and Rheims looks fine to me. We are so far back that about all we know of what is going on is what we read in the evening paper.

Some of the boys got a card from our boys at the front on detached service. They have been shelled lately. That is "soured apples" have been falling around there but no one has been unlucky. They are building barracks. I have helped build only one barracks since we came here. I have been cutting rafters with the help of another man for larger structures. They are three by nine inches and are in two pieces. We spike them together using thirty penny nails on one side and sixty penny on the other side. I have had several different fellows helping me. Sometime the fellows helping me are of a higher rank but I am responsible for the correctness of the work.

We are sure having some fine weather to work. It isn't near as hot as it is at home this time of the year. It is real splendid here.

The wells finished now and we have plenty of water. I think we will have a bath house pretty soon. I am getting to be a real washwoman. I have just finished washing my clothes.

It seems like the Y. M. C. A. is somewhat slow but I guess it will be here some day. It is beginning to look like a real American camp here now.

I have subscribed for the "Stars and Stripes" newspaper. When I get it I will read it and mail it on to you. It is the soldiers' paper and gives some good news.

Give me the address of Alvah and Bennie Oliver when you write again. I would be glad to know the address of all the home boys. Is John still in Co. H, First Oklahoma Infantry, Ft. Worth, Texas? I think most all of the boys from around home are still in the States. I never hear anything of them over here.

We are working only about 8-12 hours now. That makes it much nicer. We have more time to write etc. A fellow can do all the carpenter work in that time that he can do in 10 hours but they work 10 hours nearly everywhere else.

I will sure be glad when "finis le guerre" (the war is over) so we can return to America. Only those who

ASSASSINATION OF FORMER RUSSIAN EMPRESS REPORTED

Madrid, Sept. 6.—A dispatch was received here last night from London reporting the assassination of the former Russian empress and her daughters, but in view of the steps taken by King Alfonso to obtain the transfer to Spain of the family of the deposed and murdered Russian monarch, the report was treated with all reserve.

El Sol says the Spanish Ambassador at Berlin conferred on the question of removing the former Empress and her daughters from Russia with Ambassador Joffre, the Bolshevik Ambassador at Berlin.

There remain only a few formalities to complete, which will take only a few days, El Sol says, and then the former Empress and her children will come to Spain on a yacht flying the papal colors.

Conserve Your Money

It is just as vital that the wealth of the citizens of this country be conserved as that any other necessity be conserved to aid in the winning of the War.

Money is the greatest requirement of the Government; the absolutely paramount commodity, the essential thing which we can all have a part in providing.

The Capital Issues Committee Was Created to Help Conserve Money

The Capital Issues Committee has legal jurisdiction over all issues in excess of \$100,000 and has requested that all issues of \$100,000 or less be submitted to the District Committee for approval.

It will be regarded as an unpatriotic act for any stock to be sold which has not received the permission of the Capital Issues Committee, and all citizens are asked to cooperate with the Committee by refusing to buy any stock which has not been submitted to the Committee and received the proper permit.

Insist Upon Seeing the Permit Before Buying Any Stock

When you are asked to buy stock or bonds in any company, insist upon seeing the permit of the Capital Issues Committee for its sale. Do not accept any statement that it is all right, that the permit is in the offices of the company. DO NOT BUY ANY STOCK unless the proper permit is produced for your inspection.

Do not trade your LIBERTY BONDS for any stock, no matter if a permit for its sale has been issued or not. The boys at the front have enlisted for the duration of the War. Surely you should enlist your money without reservation.

You owe to the Government your co-operation in providing the money needed to carry on the War, and the Capital Issues Committee helps you to avoid non-essential investments.

Please do all that you can to assist the Government in this direction.

ASA E. RAMSAY,
Chairman District Committee on Capital Issues,
For the Tenth Federal Reserve District,
Kansas City, Missouri.
